FOR IMMEDIATE RELEASE

PREVENTING VEHICLE BREAK-INS

WAKE FOREST, NC – July 26, 2006 – Following a string of recent vehicle break-ins throughout Wake Forest, the Wake Forest Police Department is urging motorists to lock their unoccupied vehicles when parked at home or away.

According to police officials, most vehicle break-ins are carried out by amateurs who take advantage of the carelessness of drivers in leaving vehicles unlocked and valuables in sight. Security conscious drivers lose less than those who are careless.

The following tips help prevent vehicle break-ins:

- Park in open, well-lighted, and populated areas near your destination. Avoid parking near trucks, vans, dumpsters, and other objects that obstruct visibility and provide hiding places.
- Avoid parking near strangers loitering or sitting in vehicles.
- Park in lots or garages where you don't have to leave your keys.
- Park in your garage, if you have one. Don't leave your vehicle on the street, in an alley, or on your driveway. If you have to park on a street, avoid dark or isolated areas.
- Turn off your engine, roll up all windows, lock all doors, and take your keys with you even if you are making a quick stop at a store or gas station, or even in your driveway. Close all windows and lock the trunk and hood.
- Don't leave spare keys in your vehicle. An experienced thief knows all the hiding places. Store spare keys in your wallet.
- Don't leave cell phones, wallets, purses, or anything of value in vehicles. If you prefer not to take such items with you, lock them in the trunk.
- Don't leave your vehicle in an unattended public lot for an extended period time.
- Install an alarm system that will sound when someone attempts to break in, move, tilt, or start your vehicle. Always activate the system when leaving the vehicle.
- Check your vehicle if you hear the alarm sound. But don't try to stop a person attempting to break in. Get a good description of the person and call the police.

When shopping for a new vehicle, look for some key features, including:

- An interior hood and trunk lock releases. Install a secondary hood lock if your car does not have one.
- A factory immobilizer – a computer chip in the key.
- A locking steering wheel.
- Other anti-theft devices, such as an alarm or GPS tracking system.
